Subject: Recommendation Letter - LampSea

Our Company, THEON SENSORS SA is a leading company in the field of electro-optics with regard of night vision and thermal imaging equipment used by armed forces worldwide. Due to the nature of its end use, our equipment and provided materiel complies with the quality and performance characteristics, stipulated into the strictest military standards.

This is something expected also by our subcontractors.

In the frame of customer needs and especially Special Forces, we are cooperating with the company “**LampSea**”.

LampSea provided to us sturdy products of high quality that complied with the requirements of our customer / end user.

These products included also newly developed equipment such as the BELZ4 IR/BEMCU “Programmable Tactical Long Range High Power Infrared Beacon System”, Delos 16 “Long range Aggressive LED Searchlight” and the Z4750XL IR “Infrared Amphibious Spotlight”.

All of the equipment provided was delivered in due time, as per the agreed schedule and performed as per promised specification, to the satisfaction of the End User.

In that sense we would gladly recommend **LampSea** as an approved supplier.

Yours sincerely

THEON SENSORS S.A.
